Antiterrorism: Exposing the Deep State

No. 129

New World News Bureau

May11 /22

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961: (Cont’d. at the bottom of this frame.)

In this issue we introduce a new feature, as below. While past issues have covered past events, this new section covers possible future events, a form of pre-emptive programming. The remainder of this issue is confined to the most urgent news as sent in by correspondents. Our first instalment of the new feature appears below: the connection between Ukraine and genocide.

OFFICE OF SPECIAL PLANS

Operation Roundup:

The Covid vaccines, as we all know, contain RNA-based spike proteins. These tiny molecules are simply the detached spikelets that protrude from every virus. In the vaccine they are accompanied by lipid nanoparticles or LNPs. These (even smaller) molecules carry either a positive charge or a negative one, depending on their state of ionization. When positively charged, they are relatively benign, but when negatively charged, they activate the spike proteins which then become more damaging, poking holes in cell walls at random, producing organ failure mostly from clotting blood. The result is either death or permanent, debilitating damage, including shut-down of immune systems.

Is there a way of manipulating the charge on LNPs?

Enter 5G; an EMF wave broadcast by a 5G transmitter and tuned to the precise frequency that would ionize the LNPs, could cover a given area, resulting in massive deaths and severe illnesses in that area. The legacy media would then describe these as a “mysterious new illness”. Later, as more areas are radiated, more people would fall ill, dying in large numbers. At this point there would be an announcement from the CIA or some other official body that the ultra-deadly new disease has been tracked to Russia.

News commentators would freely speculate that Putin is responsible for this bioweapon, using it to punish the West for its support of Ukraine, making the job of conquest impossible for Putin. An expression of frustration by a mad dictator, bent on staging his own Hitlerian Holocaust. By the time a billion people have died, the West would feel compelled to launch an attack on Russia, possibly escalating to a nuclear exchange. More deaths.
