Antiterrorism: Exposing the Deep State

No. 135

New World News Bureau

Dec 24 /22

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961: (Cont’d. at the bottom of this frame.)

Another change in the focus of this series of scenarios has taken place with the inclusion of all methods for past and future operations now included.

MODUS OPERENDI

Operation Thundering Herd: Getting Cooperation

How did the Deep State get all the media to cooperate in issuing a false narrative about 9/11? How did the Deep State get all doctors to cooperate in supporting the false narrative of Covid-19? The answers to these questions may be remarkably similar:

A letter sent to all media owners, board members, senior editors and station managers may have read as follows:

“Our nation has been attacked by Muslim terrorists. We must all redouble our efforts to report the news accurately and with no telling exceptions. We are engaged, all of us, in as War on Terror. Among other things this means including no news items that would tend to undermine this war. . . . “ etc

A letter sent to all Doctors urging them to give full support and cooperation to the pandemic media narrative may have read as follows:

“We are are currently beset by the worst pandemic in human history. Some doctors have stated their opposition to the lockdowns and other operations in the struggle against COVID. If one of your colleagues openly opposes these measures, we ask you to identify them to the Medical Board so that we can deal with such

medical personnel directly, resulting possibly in the loss of their licence to practice medicine. . . “. . . . “ etc.

The first letter refers indirectly to critical articles about the falseness of the 9/11 narrative by issuing a more inclusive warning. In other words, such critical articles would be included under the heading of “undermining” the War on Terror without having to mention the articles or even the nature of such articles.

The second letter suggests that doctors rat on colleagues who oppose the Covid-19 narrative. This would throw a chill on all doctors, implying that if they ever open their mouths on the subject, their colleague would report them to the Medical Board. This technique would help to block any anti-coved consensus.
