

The NEW WORLD INTELLIGENCER

Antiterrorism: Exposing the Deep State

No. 136

New World News Bureau

Jan17/23

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961: (Cont’d. at the bottom of this frame.)

Another change in the focus of this series of scenarios has taken place with the inclusion of all methods for past and future operations now included.

MODUS OPERENDI

Operation Nineteen: According to the person who designed the PCR test (<https://off-guardian.org/2020/06/27/covid19-pcr-tests-are-scientifically-meaningless/>), it cannot distinguish one flu infection from another. The reason is simple, the PCR test responds only to the presence of protein debris left by a flu infection and the associated molecules are all identical. Are there 19 known viruses capable of infecting humans? Then Covid-19 might simply be the collection of all such viruses; infection by any one automatically becomes an infection of Covid-19.

The Wuhan wet market story needn’t be anything but pure fiction, giving the infection a distracting political dimension. The media lie factory is perfectly capable of assembling such a believable narrative. There is lots of room for “variants” in here, as well. Meanwhile, as “cases” of “Covid 19” soar, cases of regular flus are pulling a vanishing act. Seasonal and other flus have all but vanished, since they would no longer be counted as such, but subsumed under the Covid-19 collectivity.

A third item of misinformation completes the scare factor. (Assymptomatic) “Cases” are not active infections, but simply an immune response which has already taken place in light of a previous exposure to one of the viruses. The appeal of such an operation to the Deep State should be immediately obvious; it couldn’t be simpler! In the meantime, could be say “COVID” = Combined VIRal Diseases?
