Antiterrorism: Exposing the Deep State

No. 137

New World News Bureau

Jan25/23

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961: (Cont’d. at the bottom of this frame.)

Another change in the focus of this series of scenarios has taken place with the inclusion of all methods for past and future operations now included.

MODUS OPERENDI

Operation Blue Beam:

The appearance of several balloon-like objects in North American airspace has alerted the world to the possibility of an “alien invasion”, heightening fear in the general population. Apparently not all the objects were balloon like. Some were shaped like tic-tac mints — oblong with rounded ends and about the size of a car. There is an interesting connection here between this description and the appearance of UFOs pursued by American Navy fighter aircraft that videotaped these strange craft during the pursuit. The videotapes appear to have prompted the Pentagon to admit publicly that UFOs are real. Of course, the videos taken by the fire control system could also be fake; Those who recall these videos will have noted that for most of the tracking’s duration, the pill-shaped objects maintained a fixed position on the screens.

The public admission was short-lived, acting like a first step toward UFOs playing a role in some future scare operation. The UFOs pursued by the Navy fighters was also shaped like tic-tacs and the similar description between those objects and the recent UFOs, pave the way to another step, yet to come.

What step could that be? Well, since the fighters recently deployed against the mysterious aerial objects apparently shot a few down, one can see this as an immediate interplanetary caucus belli, heralding an invasion of the Earth. See The

Intelligencer #131 Aug 4/22 for an earlier version of an alien invasion. That one starts off somewhat differently but quickly becomes the anticipated invasion.
