Antiterrorism: Exposing the Deep State

No. 141

New World News Bureau

Apr24/23

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961: (Cont’d. at the bottom of this frame.)

MODUS OPERENDI

Operation Vacuum Cleaner:

We have all seen the following financial pressures develop. along with their consequences: High inflation (food, gasoline, etc.) bank failures, reduced pensions, loss of social security, all immanent and occurring, a steadily growing homeless population and general financial uncertainty among everything else. If we take all these threats to our personal money supply as part of the same operation, what can it be but a set of conditions that prepare the general population for an offer they can’t refuse? A universal income plan, even though it involves a new currency, not to mention a new *kind* of currency?

While each part of the overall operation has its special aims, all such operations have a combined aim.
