

## It's SHOWTIME!

The basic idea behind Operation Showtime is to let people know, in a direct fashion, what is going on in the world, a world that they may know nothing about. By leaving "tickets" in public spaces, you are giving "admission" to people who need to be *shown* what's going on.

Showtime is a combination of what has been called "narrowcasting" and what one member of the intelligence community has called "swarming."

The "tickets" consist of small cardboard or paper rectangles, about the size of a business card. Both sides are printed in what amounts to a two part message. For example the two sides might read as follows:

**one side**

**HERDING CATTLE IS EASY**

**other side**

**IF YOU SCARE THEM!**

This particular ticket, when retrieved from a public space, invites a person to think, if only for a second or two, how fear can drive crowds to "move" in a given direction, a response to believing in the reality of what is scaring them. It is a general type of ticket that invites a bit of abstract reflection. Other tickets may take a more direct approach, such as . . .

**WHEN DID YOU STOP**

**BEING A CRITICAL THINKER?**

A ticket may also address a specific issue arising from the Covid operation.

**THE PCR TEST  
CANNOT TELL**

**ONE KIND OF FLU  
FROM ANOTHER!**

Narrowcasting basic truths about Covid-19 and the world of deception that surrounds us amounts to a kind of hail-Mary play as the Deep State closes in.

People will spot the tickets and, in some cases, at least, read them. Some might think the tickets are someone's lost business card, etc. The tickets are two-sided and it doesn't really matter what side they begin to read. While a majority of

people may wrinkle their noses in disgust, others will say, “I thought so!” And among the latter, there will be people who say, “Hey. I could do this myself!” This third possibility is the best outcome. That way we can build “herd immunity” to the disease of media disinformation. If one can find a trustworthy printshop, large numbers of business cards could be printed quickly and professionally.

This operation is directed at the immediate enemy, the media that serve as an organ of the Deep State. If one imagines this operation being enthusiastically adopted in city after city, one may equally well imagine a litter problem so widespread that the media will not be able to ignore it. At such a point, they will be drawn into coverage that can no longer ignore what is actually being said. Simply to give the operation coverage amounts to an invitation for more to join it, a dilemma.

### **Delivery:**

Sidewalks and walkways: Drop a ticket as you go, place it on a ledge, or leave it in a bus shelter, park bench or wherever there is a handy space for it. Stores: place a ticket among fruit or other produce, under loaves of bread, on piles of shirts, in pockets of bathrobes and jackets, etc. In other public spaces: use your ingenuity to cover airports, bus terminals, theatres, and almost anywhere you go. If you find yourself in a large crowd, you may drop the tickets more or less with impunity. But if you want to be sneaky in more dispersed venues, simply slip a ticket inside your pant (or skirt) waist and let the ticket slide invisibly down of its own accord. Bring others into your operation as you go.

**Warning:** Wherever you decide to carry out deliveries, as far as possible make sure you know where any security cameras are. Also, be aware of your surroundings to the extent that you know where others around you are looking. Act completely casual. For example, if you want to plant a ticket in a magazine, “palm” the ticket, then pick up the magazine and open it as though interested in the contents. Then let the ticket slip inside the pages. Then replace the magazine.

**Don’t get caught!** As far as we know, if you do get caught, the worst that might happen is that you will get charged with littering! Operational security is paramount in any case.

**Please Note:** If you have a computer and printer, there’s nothing to stop you from making your own tickets. You may use the same “Showtime” label or make up another. My printer won’t handle card stock, so I have used two slips of paper

glued together, their sides having already been printed. Here are some sample messages I have used, along with one of my cards in a parking lot setting.

**one side**

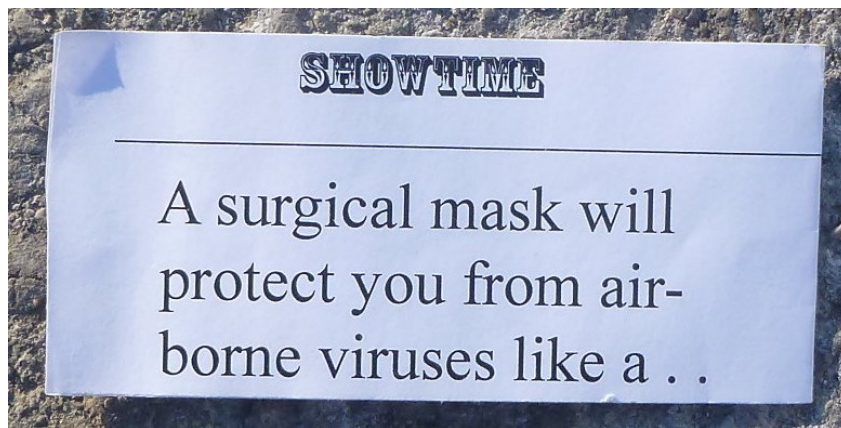

**other side**

**FASCISM**

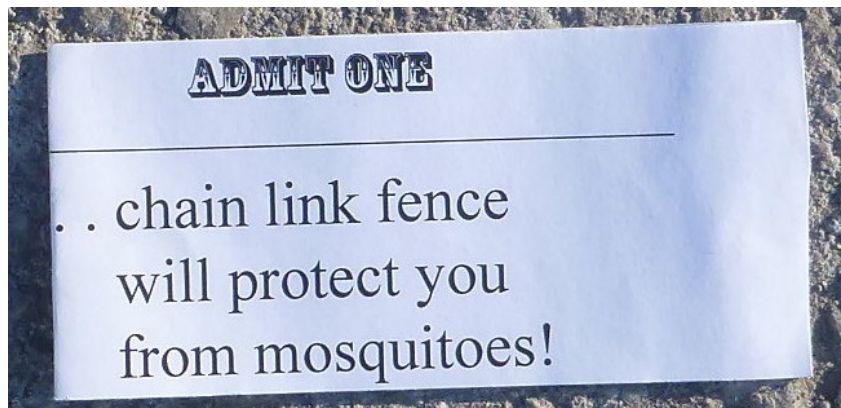

**HAS ARRIVED**

**DO YOU KNOW ANYONE**

**WITH COVID-19 SYMPTOMS?**

**OR**

**There can be no simpler or safer way to confront the media.**

**GOOD LUCK!**
