Antiterrorism: Exposing the Deep State

No. 089

New World News Bureau

Aug 07/19

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.
