Antiterrorism: Exposing the Deep State

No. 091

New World News Bureau

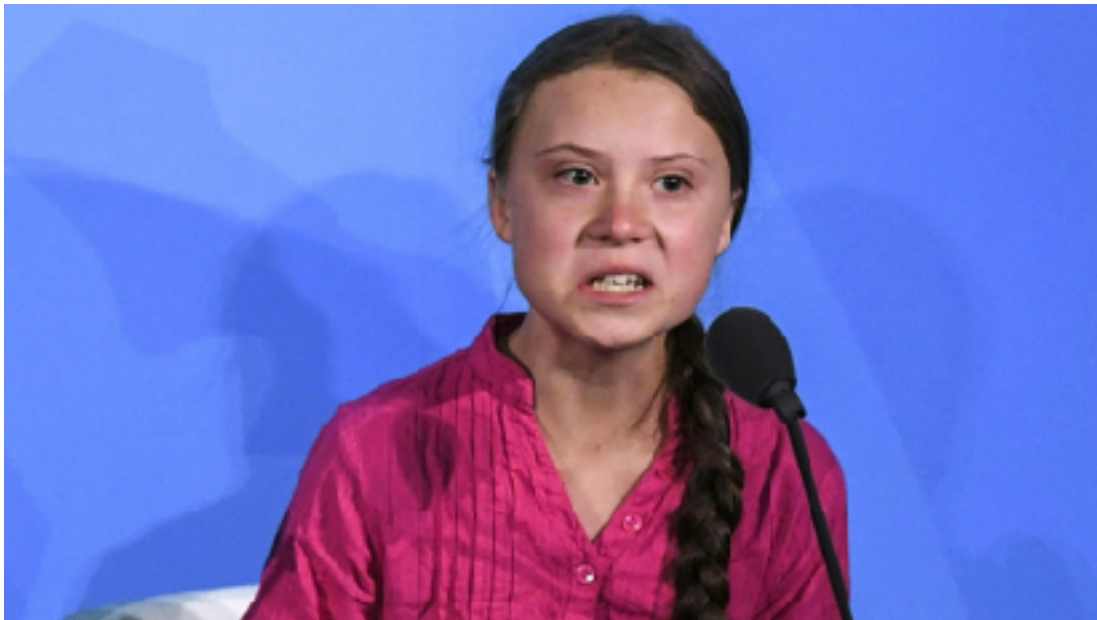

Sep 30/19

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

Special Feature:

What better way to elevate the anxiety of adults than to have a child chastise them for not taking “climate change” seriously enough? The attention paid by the print and broadcast media to this (relative) child functions to bolster Soros-financed astroturf demonstrations all over the western world.

Meanwhile back home we see no indications whatever in those same media about realistic steps to mitigate this non-existent threat to human survival except to “reduce our carbon emissions”. Does the Deep State really think that westerners will give up their cars and other carbon-intensive products so easily? Judging by its intense interest in Middle Eastern oil, the Deep State obviously expects people to continue driving for a long time. This can only mean that the teen presence is meant to induce a sense of guilt and shame to the point where adults come to believe that the carbon tax is the only way out of the problem, never mind that they have no clue about how money, all by itself, is supposed to fix the problem.

Here are three takes on the mental state of young Ms Thunberg. We do not doubt that Ms Thunberg firmly believes in her message, does not question her near-miraculous rise to the pinnacle of global attention, even as she explores the edges of her own reality, heavily under the shadow of a mental illness that she may have been born with. One feels sorry for the child within.
