Antiterrorism: Exposing the Deep State

No. 092

New World News Bureau

Oct 25/19

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

Special Feature

A film called *The Joker*, directed by Todd Phillips and featuring Joaquin Phoenix playing the title role, received heavy play in the print and broadcast (P&B) media for just two or three days, never to appear again, at least not around here. The movie is about a social misfit, a man suffering from mental illness who lives with an abusive mother, and just can’t seem to get anything going with women. His character slowly morphs into increasingly violent psychopathy, with some gruesome scenes near the end.

Every (P&B) story about this movie carried warnings from “experts”, somewhere in the bowels of the verbiage, that there was a danger that copy-cat Jokers might take to the streets in emulation of their hero, just as they do in the movie. Who might these copycats be? Why, “incels,” of course, “incel” being a shortened version of “involuntary celibates.” Such personalities are alleged to include the man who drove a van at high speed down a Toronto sidewalk in 2018 or the Walmart Shooting in El Paso, Texas in 2019. Loners with a grudge toward women. Needless to say, any organization of incels is almost sure to be astro turf.

Considered as a black op, the introduction of woman-hating men merely amplifies a mix that already contains a nearly continuous spectrum of “genders” (confusion of sexes) as well as the constant calling out of female-abusing males (creation of mistrust). It ups the ante by making bolder moves possible, including some well-publicized murders (whether fake or not) by men dressed as Jokers. The potential for social terror must be a great temptation for the Deep State. Their trick, after all, is also their treat. Should we watch for more Joker faces this Hallowe’en?
