Antiterrorism: Exposing the Deep State

No. 094

New World News Bureau

Dec 7/19

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

Special Feature: Physics 911 Hacked!

. . . extracted the virus from the operating system, laid it out on the operating table, and dissected it, so to speak.

First, the site was definitely hacked, “The vector,” said the webmaster, “was an un-updated plug-in. They were then able to install a custom plug-in, actually about 30 bodies of two different plug-ins — which enabled an alternate login page. From that login page, they were able to create about 50 directories, each containing about 500 php files . . . They then used [name withheld]’s user account, one time — to create 300 posts for Google keyword spamming, mostly for links to viagra and Chinese real estate and about 100 blog categories to porn words.”

The webmaster then proceeded to clean the site and it seems to be up and running again. From now on, we’ll have to be vigilant about [physics911.net](#). Evidently, somebody wants to see it gone. Bottom line: It helps to have a knowledgeable webmaster!
