The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy .... a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

## Special Feature:

**Australian wildfires** have been, in some cases at least, deliberately set! If you scroll down to the bottom of this issue, you will find two links that still worked when we last tested them. The first link is the news report of arson, the second is a lengthy, well-reasoned analysis of the set-up for the fires, including a startling conclusion about the role that chemtrails may have played!

The second link takes you to Youtube for a presentation that covers, the water crisis in Australia and the impoundment of water behind multiple dams, presumably to be sold to companies that will turn water into a retail commodity.
