## Antiterrorism: Exposing the Deep State

No. 097

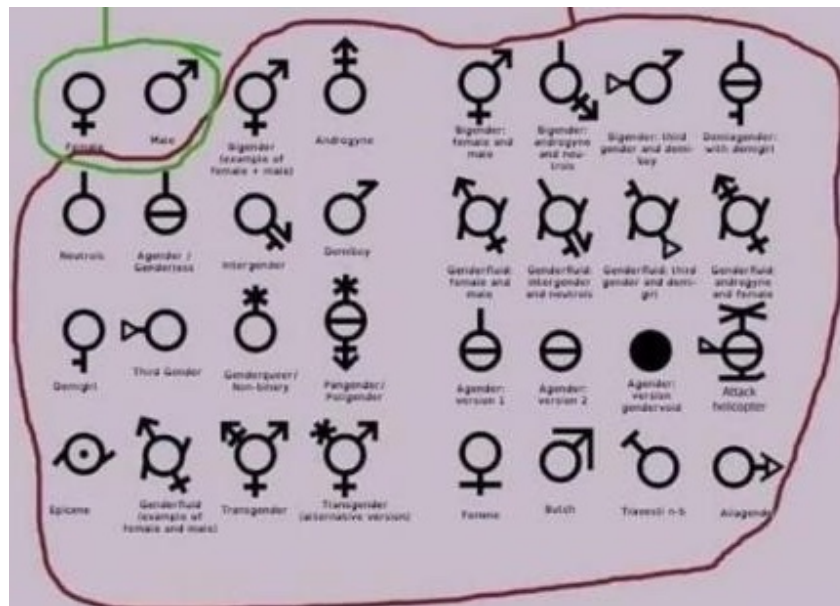

New World News Bureau

Jan 20/20

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy .... a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

**Special Feature:** A confusion of genders (i.e. sexes) seems aimed at eroding still further the sense of trust and affection between the sexes that has always existed in traditional societies. We salute those who wish to uphold these values. In the meantime, readers can guess what sexes the symbols circled in red stand for! You can also scroll to the bottom to learn about the latest casualty in the war on biological truth prosecuted by a new social class we call the Permanently Offended.
