Antiterrorism: Exposing the Deep State

No. 098

New World News Bureau

Feb 18/20

The “Deep State” is the proto-government aimed at the creation of a “New World Order” (*Novus Ordo Seclorum*), a world ruled by one government. This is undoubtedly the organization referred to by President John F. Kennedy in a speech given at the Waldorf Astoria in April 1961:

“For we are opposed around the world by a monolithic and ruthless conspiracy . . . a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations.” President John F. Kennedy speaking at the Waldorf Astoria, April 1961.

Special Feature:

A paper sent by several authors to the web journal [Biorxiv.org](https://www.biorxiv.org) claimed an “uncanny similarity” between certain protein inserts on the genome of the coronavirus and the HIV virus. The print and broadcast media protested the appearance of this paper and the journal urged the authors to withdraw the paper. The Twitter account of Zero Hedge was placed on permanent ban for publishing news of the paper.
